Risk Management	R1 The role and remit of the Audit and Assurance Committee should be reviewed to ensure that it properly articulates the role of the Committee in overseeing the risks identified by the three assigned Colleges and the way in which these deliberations should feed into the Board discussions around risk. These responsibilities should also be reflected in the assurances provided around the risk management arrangements, and specifically the description of remit of the Audit and Assurance Committee in relation to risk management, contained within the Annual Report and Consolidated Statements and should be reflected in the next iteration of the Risk Management Policy and Procedure. Audit Report	Recommendation	Management Response	Progress Update
<p>Shared Services</p>	<p>R1 In order to progress the shared services agenda within the Glasgow colleges region, we should suggest a two-step approach to reinvigorate and facilitate the shared service discussion as follows:</p> <p>Step 1 - the GCRB Executive should consider leading the establishment of a regional working group which specifically focuses on identifying opportunities for shared services across the Glasgow colleges region.</p> <p>Step 2 - the GCRB Board should then consider the role which it should play if a consensus cannot be reached on how to implement the shared services initiatives identified. Any intervention by the Board would be informed by an analysis of any potential benefits; the barriers which may prevent opportunities being realised; and the resource requirements, from all parties, which are needed to achieve successful implementation.</p>	<p>The two-step process is agreed and will be progressed as an important component of the Review of Coherent Provision and Sustainability of the Glasgow College Region.</p> <p>To be actioned by: Step 1 – Executive Director Step 2 – GCRB Chair</p> <p>No later than: 30 June 2021</p>	<p>Shared services have emerged as one of themes of the current regional review, and will receive additional focus. The two-step recommendation provides a coherent way for this to be developed within the auspices of the review.</p>
